

## **Produksi PT Golden Energy Mines Tbk naik 50%**

**Jakarta, 1 May 2012-** PT Golden Energy Mines Tbk mencatatkan produksinya sebesar 1,462 juta ton selama kuartal pertama tahun 2012. Angka tersebut mewakili pertumbuhan sebesar 50% apabila dibandingkan dengan periode pertama di tahun 2011. Volume penjualan Perseroan juga naik menjadi 1,769 juta ton. Laba sebelum Pajak Perseroan tercatat naik sebesar 24% pada kuartal pertama sebesar Rp135miliar dibandingkan dengan kuartal pertama tahun 2011 sebesar Rp 109 miliar.

Berbicara mengenai kinerja kuartal ini, Bapak Fuganto Widjaja, Presiden Direktur Perseroan mengatakan, "Meskipun volume produksi secara keseluruhan bertumbuh, Perseroan harus menghadapi meningkatnya biaya operasional yang terutama disebabkan kenaikan solar. Dari sisi pemasaran, Perseroan secara garis besar dapat mempertahankan harga jual batubara pada periode ini dikarenakan adanya kontrak pemesanan dari periode sebelumnya dan hal tersebut membuat *bottomline* tetap terjaga." Beliau menambahkan bahwa "Program pengeluaran modal untuk Anak Perusahaan tetap sesuai dengan rencana".

## **PT Golden Energy Mines Tbk production up 50%**

*PT Golden Energy Mines Tbk reported a production of 1.462mmt during the first quarter of 2012. This represents over a 50% growth over the corresponding quarter of 2011. The volume sold was also up at 1.769mmt. The EBT for the period was IDR 135 billion as compared to IDR 109 billion in Q1 of 2011 representing a 24% increase.*

*Commenting of the quarter's performance, Mr. Fuganto Widjaja, President Director said " While overall production volumes grew, the business had to contend with rising cost of operations , mainly due to increasing solar prices. On the marketing front we were able to by and large hold to the coal selling prices during the quarter courtesy orders contracted during the previous quarter and that supported the bottomline." He added that "Capital expenditure programs of the subsidiaries are on course".*
